RUN AND REVIVE THE GLORY OF THE PAST

Alexandria stadium is located in the midst of the Latin District, the oldest Avenue in Alexandria. The Stadium contains 10 gates, but the most famous gate of all is the Marathon Gate, where its walls are decorated with awesome carvings and gold medals for the Latin Olympic Games.

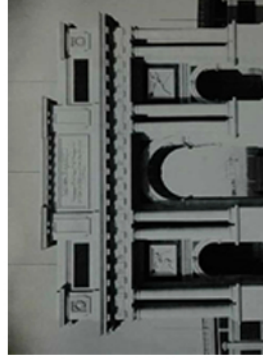

The idea of establishing the Stadium was inspired by "Sir Anglo Bolancy" (The Egyptian Greek Secretary of the of the Egyptian Olympic Committee) when he made a request to Alexandria Municipality in 1909 and allocated a site close to the Ptolemaic Gymnasium that was originally built In in the Third Century BC to host the first Olympic Games in Africa.

King Foad I, Prince Omar Toson and Sir Anglo Bolancy raised funds of 130.000 LE, announcing the beginning of the Stadium construction.

Designed by the Russian architect "Vladimir Nichosov", the Stadium was inaugurated in November 1929 with the presence of King Fouad I, high profile officials of the State and Alexandria Municipality board.
